1. The following is an examiner's statement of reasons for allowance: The claimed invention distinguishes over the prior in that it requires classifying an image element as one of a plurality of categories based on a ratio between an unoccluded perimeter of the image element and an occluded perimeter of the image element. The closest prior art found are Venable, Barthel et al, and Allmen et al. These references teach various techniques to classify a background and a foreground image. None of the prior art whether taken singly or in combination teaches or suggests using a ratio between an unoccluded perimeter of an image element and an occluded perimeter of the image element to classify the image element as one of a plurality of categories.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuoc Tran whose telephone number is (703) 305-4861. The examiner can normally be reached on MON-FRI.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leo H Boudreau can be reached on (703) 305-4760. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
